PROFILE

After growing up in **France**, I spent one year in **London** (UK) to perfect my English. Then I earned a **Bachelor's** in Economics and Management in **Switzerland** from the **University of Geneva** (top 50 globally, Shanghai Ranking 2025).

I am now starting my **Master's** degree at **HEC Montréal**.

WORK EXPERIENCE

Warehouse Manager | SIG – Usine des Cheneviers, Geneva 2 months (2026)

- Managed site inventory and warehouse storage within an industrial facility with high autonomy.
- Organized incoming stock, conducted compliance inspections, and maintained optimal warehouse flow.
- Collaborated closely with technical teams to ensure seamless supply chain and operations.

Logistics & Sales Assistant | Plainpalais Market, Geneva 6 months (concurrent with studies)

- Executed sales, customer service, and direct inventory management in a fast-paced environment.
- Handled booth setup, stock replenishment, and point-of-sale cash operations during peak hours.

Mathematics Tutor (High School & University Levels) | Geneva 4 years (concurrent with studies)

- Provided personalized instruction and exam preparation (Swiss Maturité, Baccalauréat, and university coursework).
- Developed strong time management skills by organizing dynamic, multi-student weekly schedules around full-time university coursework.

PROJECTS & INITIATIVES

- Smart ER Experience:** Designed an operational business proposal and queue management model for emergency room wait-time optimization followed by a pitch in front of investors.
- UNIGE Open Science Project:** Contributed to an academic archiving initiative integrating automated architectural generation in Minecraft. Aim: Bring academic archives to disadvantaged areas through interactive and accessible digital formats
